China Oil Page 1 of 8

SAFETY DATA SHEET China Oil

SDS according to Regulation (EC) No. 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), Annex II-EU

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Date issued 29.07.2014

1.1. Product identifier

Product name China Oil

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.3. Details of the supplier of the safety data sheet

Company name	Arboritec AB
Postal address	Olof Wijksväg 9
Postcode	SE-444 65
City	Jörlanda
Country	Sverige
Tel	0303-563 30
Fax	0303-563 32
E-mail	post@arboritec.com
Website	http://www.arboritec.com
Contact person	Jörgen Kaldemark

1.4. Emergency telephone number

Emergency telephone In case of medical emergency call:112

SECTION 2: Hazards identification

2.1. Classification of substance or mixture

Classification according to R65,R66 67/548/EEC or 1999/45/EC R48/20 Classification according to H304; Regulation (EC) No 1272/2008 H372; [CLP/GHS] EUH 066;

2.2. Label elements

Composition on the label

Hazard Pi<u>ctograms (CLP)</u>

Composition on the label	Try drotted tied by hapitala (petroledin).00 00 /0	
Signal word	Danger	
Hazard statements	H304 May be fatal if swallowed and enters airways.	
	EUH 066 Repeated exposure may cause skin dryness or cracking.	
Precautionary statements	P102 Keep out of reach of children.	
	P280 Wear protective gloves/protective clothing/eye protection/face protection.	
	P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER or	
	doctor/physician.	

Hydrotreated heavy naphtha (petroleum):50 - 60 %

China Oil Page 2 of 8

P331 Do NOT induce vomiting. P405 Store locked up.

P501 Innehållet/behållaren lämnas till godkänd mottagare av farligt avfall.

2.3. Other hazards

Other hazards When spray applying see section 8.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Substance	Identification	Classification	Contents
Hydrotreated heavy naphtha	CAS no.: 64742-48-9	Xn	50 - 60 %
(petroleum)	EC no.: 265-150-3	R65,R66	
		R48/20	
		Asp. tox 1;H304;	
		H372;	
		STOT RE1;	
		EUH 066;	

SECTION 4: First aid measures

4.1. Description of first aid measures

General	Get medical advice/attention if you feel unwell. Never give anything by mouth to an unconscious person.
Inhalation	Use with adequate ventilation. Remove victim to fresh air and keep at rest in a position comfortable for breathing. if breathing is irregular or stopped, administer artificial respiration. Never give anything by mouth to an unconscious person. If unconscious place in recovery position and seek medical advice. Get medical advice/attention.
Skin contact	Remove/Take off immediately all contaminated clothing. IF ON SKIN: Wash with plenty of soap and water. Do NOT use solvents or thinners. Wash skin thoroughly with soap and water.
Eye contact	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical advice/attention if you feel unwell.
Ingestion	Do NOT induce vomiting. Risk of aspiration or chemical pneumonia. IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.

4.2. Most important symptoms and effects, both acute and delayed

4.3. Indication of any immediate medical attention and special treatment needed

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media Recommended extinguishing media : alcohol resistant foam, CO2, powders, water spray. Do not use water jet.

5.2. Special hazards arising from the substance or mixture

Fire and explosion hazards

Fire will produce dense black smoke. Decomposition products can be hazardous. At high temperatures create: Carbon monoxide (CO), carbon dioxide (CO2), smoke, nitrogen gases (NOx).

5.3. Advice for firefighters

Personal protective equipment	Wear respiratory protection.
Other Information	Eliminate all ignition sources if safe to do so. Do not allow run-off from fire
	fighting to enter drains or water courses.

SECTION 6: Accidental release measures

China Oil Page 3 of 8

6.1. Personal precautions, protective equipment and emergency procedures

General measures	See section 7 and 8.
Personal protection measures	In case of inadequate ventilation wear respiratory protection. Wear fire / flame
	resistant / retardant clothing. Use personal protective equipment as required.
	Wear cold insulating gloves / face shield / eye protection. Wear protective
	gloves / protective clothing / eye protection / face protection. Avoid breathing
	dust / fume / gas / mist / vapours / spray. If breathing is difficult, remove
	victim to fresh air and keep at rest in a position comfortable for breathing.
	Get medical advice/attention if you feel unwell.

6.2. Environmental precautions

Environmental precautionary	Collect spillage. Avoid release to the environment. If the product contaminates
measures	lakes, rivers or sewers, inform appropriate authorities in accordance with
	local regulations.

6.3. Methods and material for containment and cleaning up

Cleaning method	Contain and collect spillage with non-combustible absorbent materials, e.g.
	sand, earth, vermiculite, diatomaceous earth and place in container for
	disposal according to local regulations (see section 13). Clean preferably with
	a detergent; avoid use of solvents.
Containment	Keep away from sources of ignition Store in a well-ventilated place.

6.4. Reference to other sections

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Handling	Vapours may form explosive mixtures with air. Avoid spilling, skin- and eye
	contact. Avoid breathing dust / fume / gas / mist / vapours / spray. Avoid
	breathing dust.

Protective Safety Measures

Protective Safety Measures	Smoking, eating and drinking should be prohibited in application area. Remove contaminated clothing and protective gear before you get to an area where meals are taken.			
Safety Measures To Prevent fire	Vapours are heavier than air and may spread along floors. Vapours may form explosive mixtures with air. Prevent the creation of flammable or explosive concentrations of vapour in air and avoid vapour concentration higher than the occupational exposure limits. In addition, the product should only be used in areas from which all naked lights and other sources of ignition have been excluded. Electrical equipment should be protected to the appropriate standard. Preparation may charge electrostatically: always use earthing leads when			
	transferring from one container to another. Use only non-sparking tools.			
Additional information	For personal protection see Section 8. Never use pressure to empty : container is not a pressure vessel.			

7.2. Conditions for safe storage, including any incompatibilities

Storage	Store in accordance with applicable regulations for good chemical practice. Keep only in original container. Store in a well-ventilated place. Keep container tightly closed. Keep cool. Protect from sunlight. Store in a dry place. Tillse att gällande arbetsmiljölagstiftning följs.
Conditions To Avoid	Keep away from heat / sparks / open flames / hot surfaces. — No smoking. Protect from sunlight. Keep away from oxidizing agents, from strongly alkaline and strongly acid materials. Prevent unauthorized access.

Conditions for safe storage

Storage Temperature Value: 5-25 Celsius

7.3. Specific end use(s)

China Oil Page 4 of 8

Recommendations Do not handle until all safety precautions have been read and understood.

Specific end users

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational Exposure limit values

Substance	Identification	Value	TWA Year
Hydrotreated heavy naphtha	CAS no.: 64742-48-9	8-hour TWA: 300 mg/m3	
(petroleum)	EC no.: 265-150-3	15 min.: 15 mg/m3	

8.2. Exposure controls

Precautionary measures to prevent exposure

Appropriate engineering controls	Use with adequate ventilation. If possible this should be achieved by local
	extraction and good exhaust ventilation. If these are not sufficient to maintain
	concentrations of particulates and solvent vapors below the OEL, suitable
	respiratory equipment.

Respiratory protection

Respiratory protection	Respiratory protection with gas filter (brown A) must be used if air	
	concentration exceeds acceptable level (OEL).	
Mask type	When spraying, use half-or full face mask with filter P2 (IIb) to spray.	

Hand protection

Eye / face protection

Eye protection	At the risk of splashing, close-fitting goggles or face shield.
Suitable Eye Protection	Wear cold insulating gloves / face shield / eye protection.

Skin protection

Skin protection (except hands) Wear fire / flame resistant / retardant clothing.

Exposure controls

-	
Safety measures for consumer use	Read label before use.
of the chemical	

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	Liquid.
Odour	As Solvent.
Comments, Odour limit	Not applicable.
Comments, pH (as supplied)	Not applicable.
Comments, pH (aqueous solution)	Not applicable.
Comments, Melting point / melting	Not applicable
range	
Comments, Boiling point / boiling	Not applicable.
range	
Flash point	Value: 64 °C
Comments, Evaporation rate	Not determined.
Flammability (solid, gas)	Not determined
Comments, Explosion limit	Not applicable.
Comments, Vapour pressure	Not determined.

China Oil Page 5 of 8

Comments, Vapour density Not determined. Specific gravity Value: 0,8-0,9 g/ml Method of testing: ASTM 6450 Test temperature: 20 °C Solubility in water Non-soluble. Comments, Partition coefficient: n-Not applicable. octanol / water Value: > 20,5 mm2/s Viscosity Test temperature: 40 °C Explosive properties Not determined. Oxidising properties Not applicable.

9.2. Other information

Content Of Voc Value: < 700 g/l

Comments: initial boiling point less than or equal to 250°C.

SECTION 10: Stability and reactivity

10.1. Reactivity

Reactivity No reactive.

10.2. Chemical stability

Stability Stable under recommended storage and handling conditions (see section 7).

Risk of self-ignition in porous materials such as insulation, rags and the like.

10.3. Possibility of hazardous reactions

Possibility of hazardous reactions
No dangerous if handled according to Technical Information.

10.4. Conditions to avoid

Conditions to avoid No applicable.

10.5. Incompatible materials

Materials to avoid Keep away from oxidizing agents, strongly alkaline and strongly acid materials

in order to avoid exothermic reaction.

10.6. Hazardous decomposition products

Hazardous decomposition products When exposed to high temperature may produce hazardous decomposition products such as carbon monoxide and dioxide, smoke, oxides of nitrogen.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Toxicological data for substances

Substance	Hydrotreated heavy naphtha (petroleum)
LD50 oral	Value: > 2000 mg/kg
	Animal test species: Rat
LD50 dermal	Value: > 2000 mg/kg
	Animal test species: Rat
LC50 inhalation	Value: > 2800 mg/m3
	Animal test species: Rat

Potential acute effects

Inhalation	Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system.
Skin contact	Prolonged or repeated skin contact may cause irritation, dry skin, cracked skin and possibly eczema.
Eye contact	May cause irritation in eyes.
Ingestion	Ingestion may cause nausea and vomiting. Pneumonia may occur if the product by swallowing or vomiting is drawn into the respiratory tract.

China Oil Page 6 of 8

Skin corrosion / irritation, other	No information available.
information	
Aspiration hazard, comments	When applying see section 8.
Eye damage or irritation other info	If splashed in the eyes, the liquid may cause irritation and reversible
	damage.

Delayed effects / repeated exposure

General respiratory or skin	Prolonged or repeated contact may defat the skin, resulting in non-allergic	
sensitisation	contact eczema and absorption through the skin.	
STOT-single exposure	No information available.	
STOT-repeated exposure	No information available.	

Carcinogenic, Mutagenic or Reprotoxic

Carcinogenicity human experience	No information is available.
Germ Cell Mutagenicity, human	No information available.
experience	
Reproductive toxicity	No information available.

SECTION 12: Ecological information

12.1. Toxicity

Toxicological data for substances

Substance	Hydrotreated heavy naphtha (petroleum)
Acute aquatic, fish	Value: > 100 mg/l
	Method of testing: LC50
	Species: Oncorhynchus mykiss
	Duration: 96h
Acute aquatic, algae	Value: > 100 mg/l
Acute aquatic, Daphnia	Value: > 100 mg/l
	Method of testing: EC50
	Species: Crustacea amphipods
	Duration: 96h
Bioconcentration factor (BCF)	Value: 112-159

12.2. Persistence and degradability

Persistence and degradability	Not determined
description	

12.3. Bioaccumulative potential

Bioaccumulative potential Not determined.

12.4. Mobility in soil

Mobility Not determined.

12.5. Results of PBT and vPvB assessment

PBT assessment results Not classified as PBT / vPvB of current EU criteria.

12.6. Other adverse effects

Other adverse effects / Remarks None known.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Specify the appropriate methods of	Avoid release to the environment. Collect spillage. Wastes and empty
disposal	containers should be disposed of in accordance with regulations made under
	the Control of Pollution Act and the Environmental Protection Act.
Product classified as hazardous	Yes
waste	
EWC waste code	EWC: 08 WASTES FROM THE MANUFACTURE, FORMULATION, SUPPLY
	AND USE (MFSU) OF COATINGS (PAINTS, VARNISHES AND VITREOUS
	FNAMELS) ADHESIVES SEALANTS AND PRINTING INKS National

China Oil Page 7 of 8

waste code: 01, National wastegroup: 11

SECTION 14: Transport information

14.1. UN number

Comments Not dangerous goods.

Transport in accordance with national law and ADR for road, RID for rail, IMDG for sea and ICAO / IATA for air. For complete information on transport,

see transport document.

14.2. UN proper shipping name

ADR	
RID	
IMDG	
ICAO/IATA	

14.3. Transport hazard class(es)

14.4. Packing group

14.5. Environmental hazards

IMDG Marine pollutant Ne

14.6. Special precautions for user

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Legislation and regulations

The labeling of the product according to EC directives 67/548/EEC, 1999/45/EC, see section 2.

Classification and labeling of substances according to Regulation (EC)

1272/2008 (CLP) is in section 2.

Classification and labeling of substances under Directive 67/548/EC, 1999/45/EC, see section 3.

Classification and labeling of substances according to Regulation (EC) 1272/2008 (CLP) is in section 3.

Safety data sheet is designed according to EU Commission Regulation No. 1907/2006.

15.2. Chemical safety assessment

Chemical safety assessment performed

No

SECTION 16: Other information

Hazard symbol

R-phrases	R65 Harmful: may cause lung damage if swallowed.

R66 Repeated exposure may cause skin dryness or cracking.

S-phrases S2 Keep out of the reach of children.

S23 Do not breathe gas/fumes/vapour/spray (appropriate wording to be $\,$

China Oil Page 8 of 8

<u> </u>	. 490 0 0
	specified by the manufacturer). S51 Use only in well-ventilated areas. S56 Dispose of this material and its container to hazardous or special waste collection point. S62 If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.
Classification according to Regulation (EC) No 1272/2008 [CLP/GHS]	; EUH 066; ; H304; ; H372;
List of relevant R-phrases (under headings 2 and 3).	R65 Harmful: may cause lung damage if swallowed. R48/20 Harmful: danger of serious damage to health by prolongedexposure through inhalation. R66 Repeated exposure may cause skin dryness or cracking.
List of relevant H-phrases (Section 2 and 3).	EUH 066 Repeated exposure may cause skin dryness or cracking. H304 May be fatal if swallowed and enters airways. H372 Causes damage to organs through prolonged or repeated exposure

Comments	The information of this SDS is based on the present state of our knowledge and on current EU and national laws. The product is not to be used for other purposes than those specified under section 1 without first obtaining written handling instruction. It is always the responsibility of the user to take all necessary steps in order to fulfill the demand laid down in the local rules and legislation. The information in this SDS is meant as a description of the safety requirements of our product: it is not to be considered as a guarantee of the products' properties.
